Chris Wilson

Software Engineer

SUMMARY

Highly logical and flexible developer with a passion for determining efficient solutions to complex problems. Experienced with code design, development and maintenance. Excels in managing multiple projects and tackling new tasks as priorities shift.

WORK EXPERIENCE

Software Engineer at 100devs, Charlotte, NC

January 2022 — Present

- Collaborated with a team of developers to build modern and responsive web applications using best practices
- Built semantically structured full stack web applications
- Applied agile methodologies like SCRUM for project management

Recent Projects:

Piece of Cake Bakery (Fullstack Web App) – Cashier can take bakery orders from customer with their names. Bakers can login to the app and see orders that have been made, mark them as complete. Orders that have been completed will note which oven completed the order.

Gaze Gallery (Fullstack Web App) – Fully customizable art gallery app. Users can upload and make notes on their art

100Hours Project – Worker oriented Logistics inventory and movement tracker

Other Projects: "Pokéscript" Pokémon API- based guessing game

Full Stack Web Developer at CarpeOmnia Consulting |Charlotte, NC

January 2022 — Present

Created full stack web applications and static websites for different clients across small and medium size businesses. Also, consulted on SEO and social media strategy. Some clients included:

Actual Client – Patricia Wilson (online store front deployment)

Dockman Lead at Old Dominion Freight Lines | Charlotte, NC

April 2016 — Present

Assisted customers in keeping promises by providing on-time high quality logistical support. Also, facilitated communication between subordinates and superiors. Provided IT support, as needed, to help maintain system uptime.

VOLUNTEERING

Moneissa Notary | Charlotte, NC

March 2020 — Present

Helped in establishing online presence as well as maintaining hardware and software.
